## ■ India to Benefit from US-China Trade War: Experts

**NEW DELHI:** The ongoing trade war between the US and China will help India tap export opportunities in both the countries in areas such as garments, agriculture, automobile and machinery, according to trade experts. Professor at Indian Institute of Foreign Trade (IIFT) Rakesh Mohan Joshi said the US has broadly targeted intermediate components from China, particularly machinery and electronics, whereas China is targeting American automotive and agricultural products including Soybean. "Strong opportunity is unfolding for India in apparel and ready-made garments as after China, India is the only country in the world to match the scale of operations and integrate its supply chain for global customers," Joshi said. -PTI
