

1.1.1 SUMMARY SHEET

Metric 1.1.1: *Curricula developed and implemented have relevance to the local, national, regional and global developmental needs, which is reflected in the Programme outcomes (POs), Programme Specific Outcomes(PSOs) and Course Outcomes(COs) of the Programmes offered by the University*

From the very beginning, the focus of the Institute has been International Trade and Business and till date, across the programmes, the focus continues. Periodically the curriculum review exercise is carried out in consultation with faculty members of other institutions, industry experts, alumni and other stakeholders. The current curricula of all programmes under accreditation review at Delhi and Kolkata campuses have been developed and refined in accordance with the guidelines of the All India Council for Technical Education (AICTE) and the University Grants Commission (UGC). Primarily led by faculty, the IIFT's effective, mission-oriented, well-defined and robust curriculum management process incorporates priorities and expected participant's outcomes in the programmes.

The learning experiences for different programmes at IIFT are designed and delivered keeping in mind the management fundamentals, international management, and specialized skill areas specific to different programmes. These learning experiences are linked to the learning goals for each programme. IIFT faculty are grouped under seven area related Discipline Groups and all decisions related to academic inputs in a particular programme are taken by these groups, which are then approved by the Board of Studies (BoS) of the respected division, Each division has a Board of Studies (BoS) which largely comprises of internal faculty and has two external members. The role of the board of studies is to examine curriculum review changes, sequencing of courses, alignment of course credits with regulatory requirements and referrals made by the discipline groups. Decisions taken in the board of studies are then referred to the Director/ Academic council chaired by the Director of the institute for granting approval to the decisions made at the level of the board of studies.

In all the programmes of IIFT, the focus is on International Business. However, the curriculum encompasses four categories of courses. First, the foundational courses include courses like Statistics, Economics, IT and Quantitative techniques. Secondly, the courses related to four management functions; Like: Marketing Finance, HR and Operations. Thirdly, there are the courses which are focused on international business and finally the courses which have a strategic perspective. In addition, there are courses on soft skills and the cross-cultural aspects of international business.
