Introduction:

Contracts are the lifeline and foundation of all commercial activities. With the increase in business activities the national markets have become inadequate resulting into global markets. The nature of contract is changing from national to transnational. Hitherto the Contracts were more custom based which varied from country to country but currently to provide more harmonization to contracts, the countries has adopted international treaties and convention. The objective of all these efforts is to provide clarity to the dealing parties relating to their rights and obligation. This course aims to understand the different types of contracts and need of contract management because of increase in international trade. The present course will also acquaint the students with International Conventions, treaties and practices for smooth functioning of trade and implementation of contracts.
