BATCH 03

INDIAN INSTITUTE OF FOREIGN TRADE
Deemed to be University

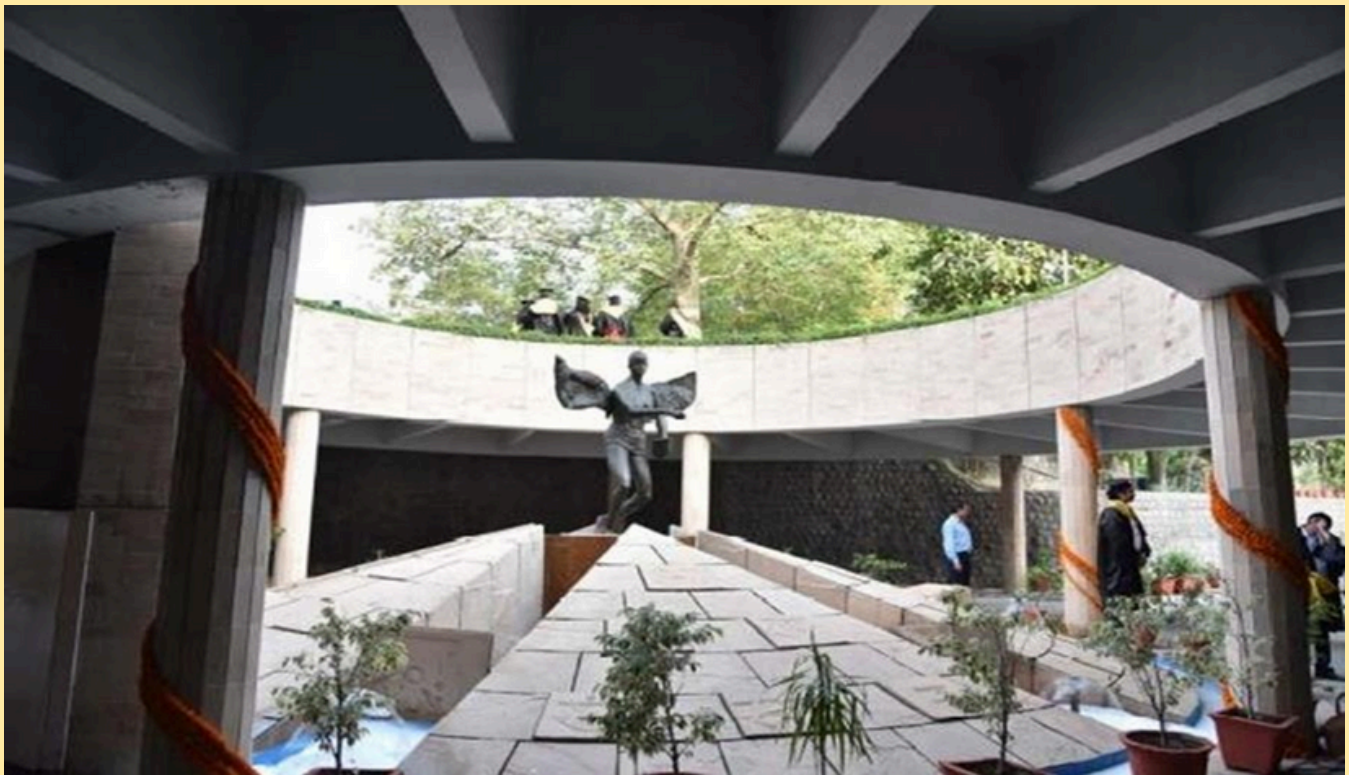

Under Ministry of Commerce and Industry Government of India

www.iift.ac.in

INTRODUCTION

The course aims at developing a systematic understanding of the vital role of Logistics in International Trade. It focuses on understanding of the different dimensions and the elements of International Trade Logistics ranging from Government policies, regulations, geopolitics to actual operations. The course aims at providing the concepts, issues and challenges including the risk and legal implications in Trade Logistics including policies, sourcing strategies, cultural diversity and risks.

This comprehensive programme also covers customs regulations, policy, procedures, and practical know-how, equipping students with the confidence, knowledge, and expertise to excel in the complex landscape of global business, which includes India's free trade agreements. Students gain a deep understanding of not only customs operations but also the broader economic environment shaped by India's international trade agreements, fostering a well-rounded approach to commerce.
