INDIAN INSTITUTE OF FOREIGN TRADE

(DEEMED TO BE UNIVERSITY)

Under Department of Commerce, Ministry of Commerce and Industry, Government of India

INTRODUCTION

The global business landscape has witnessed rapid transformation in recent years due to increasing international trade, liberalized economic policies, technological progress, and changing geopolitical developments. The growing interconnectedness of economies has created both significant opportunities and complex challenges for businesses operating across borders. As international trade continues to expand, organizations increasingly require professionals with specialized knowledge and practical understanding of export-import operations and global business practices.

The Online Certificate Programme on Export Import Management is designed to provide participants with a strong foundation in the principles and practices of international trade and business. The programme offers comprehensive insights into various aspects of export-import management including international marketing, trade procedures, export documentation, logistics, shipping practices, freight forwarding, packaging, international finance, and regulatory compliance. It aims to equip participants with the essential managerial and operational skills required to function effectively in the international business environment.

With traditional export destinations such as the United States and European markets becoming highly competitive, emerging economies across Africa, Latin America, ASEAN, CIS countries, and other regions are gaining prominence as important trade partners. Businesses are increasingly exploring these markets for expansion opportunities while also facing challenges related to trade regulations, logistics, financing, market entry, and risk management. The programme enables participants to understand these evolving global trade dynamics and develop strategies for successful international business operations.

India's active participation in WTO agreements and various regional and bilateral trade arrangements has opened new avenues for export growth and international market diversification. However, awareness regarding international trade opportunities, policy

initiatives, and market access mechanisms remains limited among many business organizations and aspiring entrepreneurs. This programme seeks to bridge that gap by enhancing participants' understanding of the global trade ecosystem and helping them identify opportunities for business expansion and export development.

The programme is delivered by experienced academicians and industry experts through a practical and application-oriented learning approach. Through interactive sessions, case studies, and industry-focused discussions, participants will gain valuable insights into contemporary international trade practices and emerging business trends. The programme aims to develop analytical thinking, strategic decision-making abilities, and a global perspective that will enable participants to successfully navigate the dynamic and evolving landscape of international business.

COURSE OBJECTIVE

- Understand the dynamics of the global business environment and its impact on international trade.
- Analyze global economic trends.
- Identify opportunities and challenges presented by globalization and emerging markets.
- Develop an understanding of international marketing concepts and strategies.
- Understand India's foreign trade policy and its implications.
- Understand the financial instruments used in export-import transactions, such as letters of credit and trade finance facilities.
- Acquire practical knowledge of import-export operations and documentation procedures.
- Gain an understanding of international trade logistics and supply chain management.

PEDAGOGY

The methodology adopted will be easy to understand with far-reaching impacts. Lecture presentations, Group Work as well as the reality-based Case Studies with global perspectives would be the key, essentials and deliverables of the program. Sessions are designed to be interactive and participative. It will leverage the use of technology. It will consist of a judicious blend of lectures, real life case studies, quizzes and assignments.

IIFT Kakinada

Four-Month Certificate Programme in Export-Import Management

What your peers say?

“

Phani

"The Export & Import Management Programme at IIFT Kakinada provided a structured and practical understanding of global trade. The faculty combined industry experience with academic excellence, helping us connect documentation, compliance, logistics, and risk management. The programme significantly strengthened my knowledge and confidence in international trade operations."

Mounika

"As a practicing port agent and charterer, this programme helped me understand international trade in a more structured way. The modules on trade documentation, INCOTERMS, logistics, trade finance, and foreign trade policy were highly relevant. The practical discussions and industry insights enhanced my professional knowledge and career growth."

Sankalp

"This programme offered an enriching blend of academic learning and industry-focused insights. The hybrid format, practical case studies, and discussions on global trade, logistics, customs, and trade finance helped connect theory with real-world applications. It broadened my perspective and strengthened my understanding of the export-import ecosystem."

PROGRAMME HIGHLIGHTS

Trade Documentation | Trade Finance | Foreign Trade Policy | Customs Procedures | Risk Management |

2024-25 | IIFT Kakinada Campus

Building Global Trade Leaders Through Excellence in Education
